

## Worksheet ETiCCS Project

S.no	Process	Interface	Questions
1	Mapping of households	Not clear	Is there an interface required for this <u>exercise</u> ?
2	Registering an individual household	Required	Does the format of this information remain the same or is any change <u>desired</u> ?
3	Enrolling an individual household A. The community health worker (CHW) introduces study to the head of the household using a script. B. The following information is noted on every household member: (1) first name, (2) initials, (3) gender, (4) age in years, (5) presence, (6) residency status (3) more or more nights present), (7) relation to head of household .	A. Not clear B. Required	A. Is there an interface required for this exercise? What would be the part of the <u>interface</u> ?  B. Does the format of this information remain the same or is any change desired? This information has to be displayed as standard survey <u>format</u> ?
4	Enrolling eligible woman A. eligibility check + consent form B. contact details of the participant will be captured. This includes mailing address, physical address, national ID, telephone and an optional alternative contact person	A. Required B. Required	
5	Completing socio-demographic questionnaire (optional)	Not clear	Is there an interface required for this <u>exercise</u> ?
6	Collection of study sample A. sample requisition form: The date when the sample was taken, reason if not taken, a unique sample ID.	A. Required	Does the format of this information remain the same or is any change <u>desired</u> ?
7	Managing absent or declining woman A. refusal form B. invitation letter.	A. Not clear B. Not clear	Is there an interface required for this <u>exercise</u> ?
8	Informing about HPV test result	Required	Is there a format already established for this <u>exercise</u> ?

Hermann Bussmann 16/5/16 6:30 PM

**Comment [1]:** This depends on whether we want to enroll households from existing maps with already enumerated households or we enroll households as visited. We need to discuss with Ethiopian colleagues

Hermann Bussmann 16/5/16 6:31 PM

**Comment [2]:** Again I'm not sure about what info on households already exists

Hermann Bussmann 16/5/16 6:33 PM

**Comment [3]:** What might be needed is probably only to indicate 'done' in order to satisfy ethics committee

Hermann Bussmann 16/5/16 6:34 PM

**Comment [4]:** Yes, displayed as standard survey, the detailed info not yet decided

Hermann Bussmann 16/5/16 6:35 PM

**Comment [5]:** The scope of the SD info needs to be determined with Ethiopian colleagues

Hermann Bussmann 16/5/16 6:37 PM

**Comment [6]:** The fields are as required; reasons if not taken not yet completed

Hermann Bussmann 16/5/16 6:40 PM

**Comment [7]:** A: As under 6; the list for reasons of refusal needs still to be finalized.  
B: probably not needed; the info whether woman is absent will be important, however, to know whether household needs to be revisited

Hermann Bussmann 16/5/16 6:43 PM

**Comment [8]:** Not yet established. The info should contain the result (pos, neg) and the required action (invite to clinic, no followup needed)

9	Screening of HPV positive woman A. Digital requisition form B. referral form	A.Required B.Required	Is there a format already established for these exercises?
10	Sending of samples to laboratory	Not clear	Is there an interface required for this exercise?
11	Receiving lab results	Not clear	Is there an interface required for this exercise? Is there a format already established for this exercise?
12	Informing Participants	Not clear	Is there an interface required for this exercise?
13	CINtec PLUS positive participants • study nurse will complete the referral form and make an appointment with the gynecologist.	Not clear	Is there an interface required for this exercise?
14	HPV testing of community samples	Required	Is there a format already established for this exercise?
15	Biomarker testing of clinic samples	Not clear	Is there an interface required for this exercise?
16	CINtec PLUS Evaluation	Required	Is there a format already established for this exercise?
17	Gynaecology office A. gynecology examination B. histology requisition	A.Not clear B.Required	Is there a format already established for this exercise?
18	Gyn pathology lab	Not clear	Is there an interface required for this exercise?
19	Gyn pathology A. Histology work sheet and the result section of the histo requisition form.	Required	Is there a format already established for this exercise?

Hermann Bussmann 16/5/16 6:46 PM

**Comment [9]:** A: Requisition for biomarker similar to 6 (for HPB test)  
B: if colposcopy is positive, referral to gynecologist is needed, so fact that woman was referred should be captured

Hermann Bussmann 16/5/16 6:47 PM

**Comment [10]:** 'sample for biomarker test sent'

Hermann Bussmann 16/5/16 6:48 PM

**Comment [11]:** the lab result (pos/neg/indeterminate)

Hermann Bussmann 16/5/16 6:50 PM

**Comment [12]:** the info should include: informed (y/n), date, mode (cellphone/visit)

Hermann Bussmann 16/5/16 6:51 PM

**Comment [13]:** if biomarker test is positive: 1.) women will be informed to come to clinic, 2.) when in clinic referral will be made as 9B

Hermann Bussmann 16/5/16 6:53 PM

**Comment [14]:** 14 and 15 are modules for the lab technician: sample received/date; sample tested/date; result

Hermann Bussmann 16/5/16 7:03 PM

**Comment [15]:** not yet decided who will be the evaluator, the info would be 'date of evaluation' and 'result'

Hermann Bussmann 16/5/16 7:06 PM

**Comment [16]:** A: 'date of examination'; 'findings'; 'action'  
B: as 6 and 9

Hermann Bussmann 16/5/16 7:03 PM

**Comment [17]:** as 14 and 15

Hermann Bussmann 16/5/16 7:04 PM

**Comment [18]:** as 16
